OUTDOOR LED SOLAR SECURITY FLOODLIGHT WITH DUAL PIR SENSORS

Great for residential and commercial applications, this solar power light allows homeowners and property managers to quickly install a motion detecting floodlight in any location, without the need to wire into a power source. The unit has three settings to choose from, dusk until dawn and sensor when used as security lighting or constant lighting mode when you require the light to remain on. The built-in solar panel recharges the lithium-ion battery helping you save money on your energy bills. The unit has a lifespan of 35,000 hours and the 60 LEDs provide a total of 1080 lumens, making it incredibly bright. Its IP65 water resistance rating makes it perfect for all outdoor conditions. The light can be installed on a wall, pole, fence or sat on a horizontal surface like a picnic table. Its ABS, anti-UV construction makes the unit extremely durable. Use over garages, alongside pathways, backyards, campsites or above entranceways.

- Easy to install. No external power source required as light is powered by solar energy.
  Three working modes to choose from, sensor, dusk until dawn and constant mode with integrated auto on/off
- Illumination for up to 5 straight hours on a single charge when placed in bright, sunny areas. Total lifespan of the unit is 35,000 hours.
  The 10-watt LED pad and 60 LED cells provide a total of 1080 lumens making the light extremely bright
- Multi-Functional. Manufactured with sturdy aluminum bracket for mounting that adjusts 360 degrees while the light panel adjusts 135 degrees.
  Incorporated mounting ports for convenient placement. Mounting hardware included
- Designed with a large solar panel. Unit has a IP65 water resistance rating, making the product durable and suitable for all outdoor conditions
- Unit has Dual PIR Sensor 8M is Stand-able, Portable, Hang-able, Adjustable and Foldable. CCT 6000K. Includes Replaceable Battery: 3.7V/7200mA
