18V Brushless Compact 76mm Cut Off Saw

Introducing the 18V Brushless Compact Cut Off Saw (DMC300), the ultimate tool for precise cutting. Engineered with cutting-edge features, this saw sets a new standard in efficiency, safety, and versatility.

Equipped with Active Feedback Sensors (AFT), the tool instantly shuts down the wheel rotation in the event of a kickback. With forward and reverse rotation capabilities, it effortlessly handles push or pull cutting, adapting quickly to any task with ease.

Experience lightning-fast cutting speeds with a rapid 20,000rpm, allowing you to effortlessly slice through a wide range of material. Our advanced safety measures, including an electric brake and anti-restart function, offer enhanced protection during operation.

Furthermore, our patented XPT technology guarantees long-lasting durability by safeguarding the tool against dust and moisture. Whether you're cutting metal, masonry or plastics our 18V Compact Cut Off Saw delivers unparalleled performance, reliability, and safety for all your cutting needs.
