JET-KUT

Prentice Drill Bits 135° Split Point Black Oxide Finish
General Purpose (for Drills and Drill Presses)

- Self-centering 135° split point provides consistent hole sizes and accurate hole placement without a centre punch
- Manufactured from high speed steel to drill faster and last longer
- Fully ground flutes for consistent hole sizes and fast chip evacuation
- Black oxide finish prevents chips from welding to flutes and cutting surfaces, extending cutting tool life
- Top quality bits at low cost, ideal for cordless drills, portable drills and drill presses

Jobber Length Drill Bits M2 135° Split Point Black & Gold Finish Premium (for Drills and Drill Presses)

- Premium 135° split point – black and gold finish
- Professional grade M2 high speed steel bits at competitive prices
- Bronze oxide gold lands to reduce friction for cooler cutting and longer bit life
- Nitro carburized black flutes for improved surface hardness ensure bit stays sharp longer
- 135° split point eliminate "walking"
- TORQUE DRIVE® three ground flats eliminate chuck slippage (available from size 3/16" and larger) - smaller sizes have round shanks

JET-KUT B&G

Stubby Length Bits M2 135° Split Point Black and Gold Finish Premium (for Drills and Drill Presses)

- Designed for drilling holes in sheet metal, machined parts, aircraft, rivets and confined spaces where a shorter more accurate drill bit is required
- The short length of the drill flute increases the hardness and rigidity for the most precise, accurate drilling
- Premium 135° split point – black and gold finish
- Bronze oxide gold ends to reduce friction for cooler cutting and longer bit life
- 135° split point eliminate “walking”
- TORQUE DRIVE® three ground flats eliminate chuck slippage (available from size 3/16 and larger) smaller sizes have round shanks
- Available from 1/8" to 1/2" in increments of 64ths
